

Virtual Workshops For High School Students

Meet students where they are by providing critical financial education on relevant topics to help build the foundation for a healthy financial future.

Interactions with financial experts are essential to laying the foundation for a healthy financial future. EVERFI's meaningful, in-depth, virtual workshop solution, *EVERFI Engage for K12* is built for additional learning outside of the classroom, to empower high school students to be smart financial decision makers. By leveraging interactive & activity-based virtual learning, Engage for K12 immerses students in real-life financial scenarios that focus on skill building and responsible decision making for their money.

WORKSHOP DETAILS

- Grades 9-12
- 45 minutes
- The workshop will emphasize setting SMART financial goals, using checking and savings, managing credit and debt, and how to keep track of finances. The facilitator will provide instruction on a sub-topic area, followed by a “choose your own adventure” style scenario that allows learners to direct the financial outcome of the character. After quick feedback on the outcome, the facilitator will move on to the next topic and end with actionable next steps

Topics Covered: SMART goals, Savings Accounts, Compound Interest, Checking Accounts, Debt, Credit, Budgeting, Financial well-being
